Garment Paper

Pattern Paper

Pattern paper is generally used in the garment industry. Manila colored pattern paper is the most common. Colored pattern paper is used for color coding a particular design, season, year or product line. An example being red for fall season, or green for spring season. Pattern paper easiest to cut and use with a scissors is the thinnest, 100# basis weight. The 100# basis weight paper is generally used for first patterns, and patterns that will not be used to often. The 125# basis weight is a medium weight generally picked by pattern makers. The 150# basis weight pattern paper, can be used for heavy usage. The 200# basis weight is used for possibly more than one season, or very heavy usage.

All of our Paper Rolls are Guaranteed Footage.

Product Code	Description	Color	Length
PP36125	36 inch/125# Basis Weight	Manila	550 Feet
PP36150	36 inch/150# Basis Weight	Manila	450 Feet
PP48100	48 inch/100# Basis Weight	Manila	650 Feet
PP48125	48 inch/125# Basis Weight	Manila	550 Feet
PP48150	48 inch/150# Basis Weight	Manila	450 feet
PP48200	48 inch/200# Basis Weight	Manila	325 Feet
PP60150	60 inch/150# Basis Weight	Manila	450 Feet

Colored Pattern Paper

All of our Paper Rolls are Guaranteed Footage.

Product Code	Description	Color	Length

Garment Marking Paper

Marketing paper is used in the garment manufactures cutting room. The patterns are placed, on top of the marking paper, and then the pattern is traced onto the marking paper. White paper printed with letters and numbers, 1, 2, 3, 4, 5, 6, 7, 8, 9, X, every inch in a horizontal line. (1 being the first line) (2 being the second line, etc.) to assist the cutter in setting the patterns on top of the marking paper. The marking paper becomes the design pattern when cutting the fabric.

All of our Paper Rolls are Guaranteed Footage.

Product Code	Description
MM36	36 inch X 600 foot One to Five Marking Paper
MM45	45 inch X 600 foot One to Five Marking Paper
MM48	48 inch X 600 foot One to Five Marking Pape
